Claim Objections

2. The previous claim objections have been withdrawn in light of Applicant's amendment.

3. The previous 112 rejections have been withdrawn in light of Applicant's amendment.

Claim Rejections - 35 USC § 101

4. The previous 101 rejections have been withdrawn in light of Applicant's amendment.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas E. Kocovsky, Jr. (Reg. No. 28,383) on November 19, 2009.

The application has been amended as follows:

In claim 9, line 12, change "selecting a region to be imaged" to – selecting a region smaller than the whole region to be imaged --.

Allowable Subject Matter

6. Claims 2-6 and 8-22 (renumbered as 1-20) are allowed.

7. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach selecting a portion of a lower resolution first image data set situated in a *selected image region based on a higher resolution second image data set* and reconstructing a first tomographic image *exclusively from the portion of the first image data set which is situated in the selected image region*, as stated in claim 6 (renumbered as claim 1), combined with other elements and features of the claim; segmenting the first image data set in accordance with the selected image region segmented from the second image to define a segmented first image data set and *reconstructing a first tomographic image exclusively from the segmented first image data set*, as stated in claim 8 (renumbered as claim 4), combined with other elements and features of the claim; wherein the reconstructing step further comprises the steps of: selecting a region *smaller than the whole region* to be imaged from at least one region represented in the second image data set and calculating the image reconstruction from image data in a region represented in the first image data set that *corresponds to the selected region represented in the second image data set*, as stated in claim 9 (renumbered as claim 7), combined with other elements and features of the claim; forward projecting the segmented second image to form a *segmented second image data set*, associating the segmented image data set with the first image data set

to form a segmented first image data set, as stated in claim 10 (renumbered as claim 11), combined with other elements and features of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
